

moodle@NovaSBE

Course Management System

This Platform is a **powerful supplement to face-to-face classes** enabling very rich interactions between Teachers and Students, focusing on the Students learning needs.

It provides goal-oriented feedback and tools for communication, collaborative work and sharing of materials plus multiple means to measure and keep track of Students progress with a variety of objectives.

It is online and always available in any location with Internet access.

For more info about moodle and this Platform go to the **"Info & Support"** block (left column, after Login), where you can find support for its uses and underlying rules and procedures.
