

Course Management System

This Platform - a Virtual Learning Environment - is a **powerful supplement to face-to-face classes** that can be used **anytime, anywhere and on any device** with Internet access - from a desktop to a mobile phone.

Main features:

- available 24/7;
- multiple engaging Activities and Resources with multimedia content;
- tools for communication, collaborative work and sharing of materials allowing for very rich interactions between Teachers and Students,
- provides goal-oriented feedback focusing on the Students learning needs,
- means to measure and keep track of Students progress, with a variety of objectives.

For more info about moodle and this Platform go to “**Start Here/ General Help**”, “**for Students**” and “**for Instructors**” in the Front Page, where you may find information about this Platform uses, underlying rules and procedures.
